

Lesson 5 - Get the measurements for your top fabric.

- Tools and materials needed; completed wooden frame, soft tape measure, pen and paper
- Top tip; have pen and paper to hand to write down your measurements.
- To calculate the width of your fabric you will need to include wrap the tape measure round the frame including;
 - Width of frame + sides of frame/foam (x2) +5cm extra for allowance (x2)
- To calculate the height of your fabric you will need to include wrap the tape measure round the frame including;
 - Height of frame + sides of frame/foam (x2) +5cm extra for allowance (x2)
- Watch Lesson 5 video for detailed instructions.
